

Bridging the gap between law and implementation of health promoting primary care: the Austrian case

Daniela Rojatz, Stephanie Rath

22. September 2023

HPH Conference

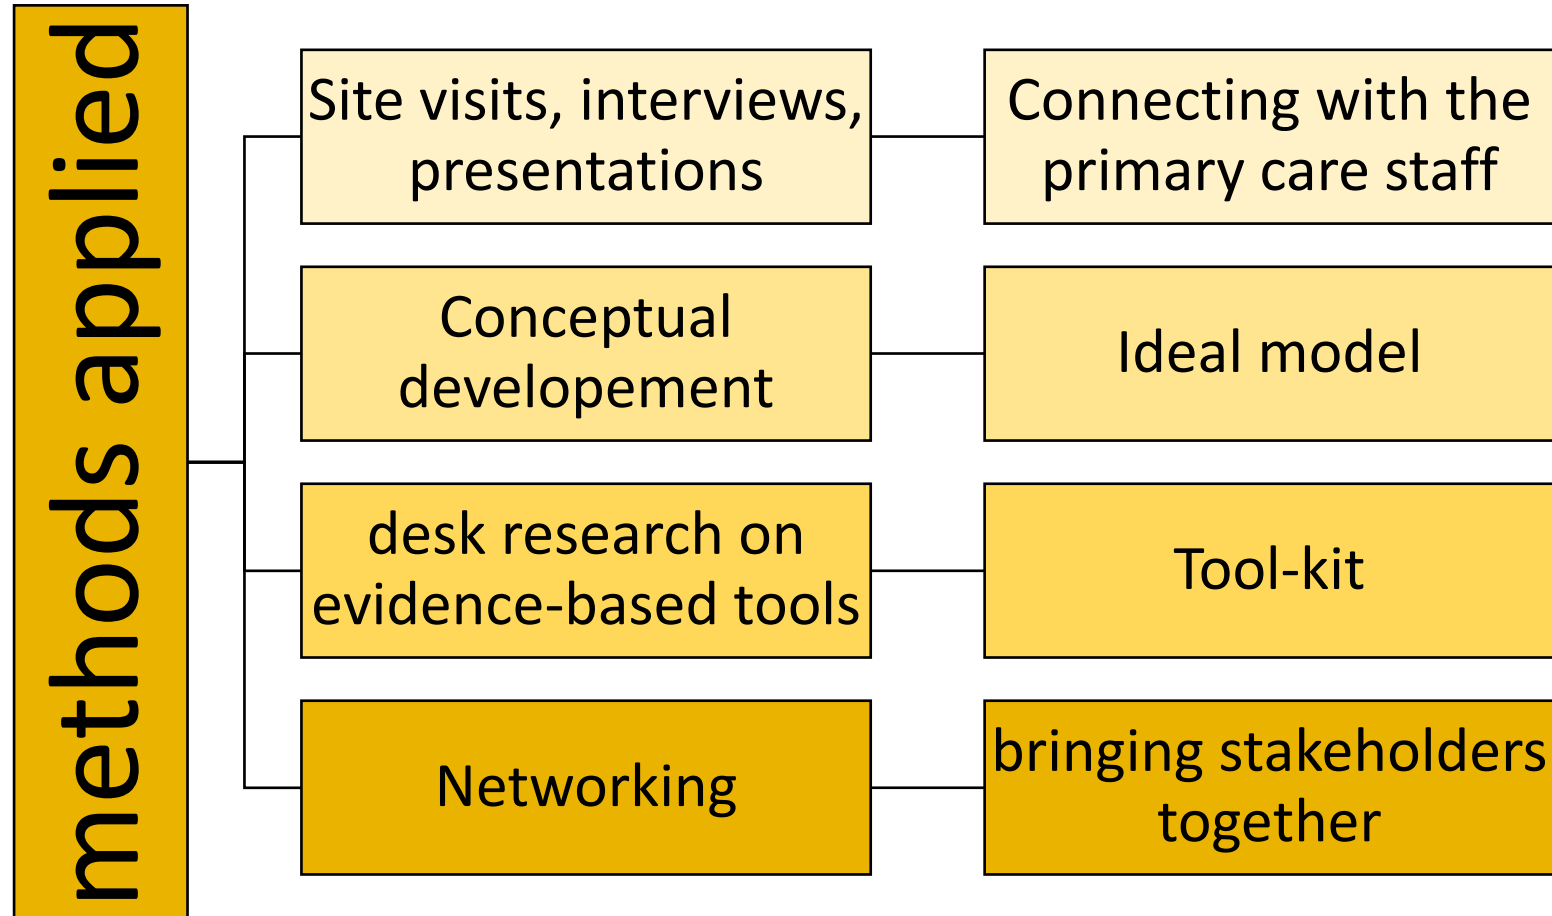

Gesundheit Österreich
GmbH ● ● ●

Background and objective

- Health promotion and prevention are defined tasks of multiprofessional primary care units in Austria
- The Fund for a healthy Austria and the Austrian Social Insurance commissioned a project in 2018 and have worked on it ever since
- **The mission:
to support the systematic Implementation of these tasks**

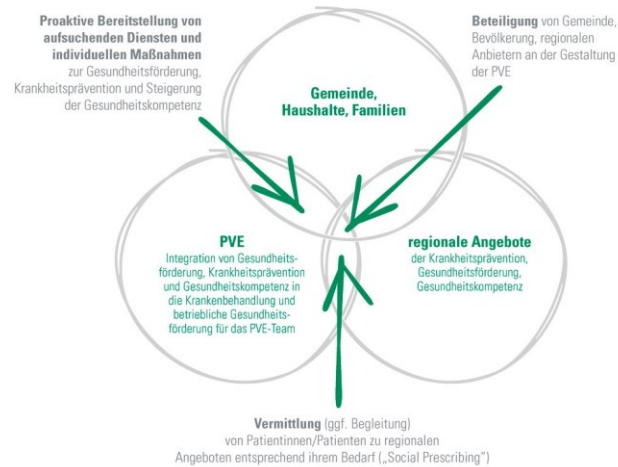

Methods

Results

Conceptual guidance: What to do?

Eckpunkte einer an Gesundheit orientierten PVE

Written support material: How to?

Continuous guidance: How to?

Gesundheit erhalten & fördern

Die Österreichische Gesundheitskasse begleitet Primärversorgungseinheiten (PVE) dabei, ein passendes Konzept aufzubauen.

Conclusion

The systematic implementation of the task areas is a complex undertaking and requires addressing several levels as well as coordination with current political developments and other projects in the field.

Thank you for your attention!
